Agenda

- Strategy - A Definition.
- Can We Apply This To Cloud Native?
- The Problem Space.
- Iterating Through The Space.
- Guidelines and Conclusions.

Strategy

When To Use Strategy?

- Transcends Organisational Boundaries.
- The Organisation Is Lacking Key Capabilities.
- Creates Winners and Losers. (And Therefore Resistance.)

Agenda

Work is in the public domain. More information at: https://commons.wikimedia.org/wiki/File:The_Sirens_and_Ulysses_by_William_Etty_1837.jpg.

Elements

- Goals Built into a Larger Narrative.
- Situational Awareness.
- Now and the future.
- Coalitions.
- Self-Supporting Actions.
- Risk.
- Courage.

A strategy is a way through a difficulty, an approach to overcoming an obstacle, a response to a challenge.

Rumelt, *Good Strategy/Bad Strategy*.

Applying This to Cloud Native

The Goose and the Golden Eggs

- Microservices.
- Highly available.
- Two pizza teams.
- Auto-Scaling.
- Load Balancing.

Lesson #1 - Don't Steal Ideas But Rather

Lesson #2 - Steal The Processes That Created Those Ideas

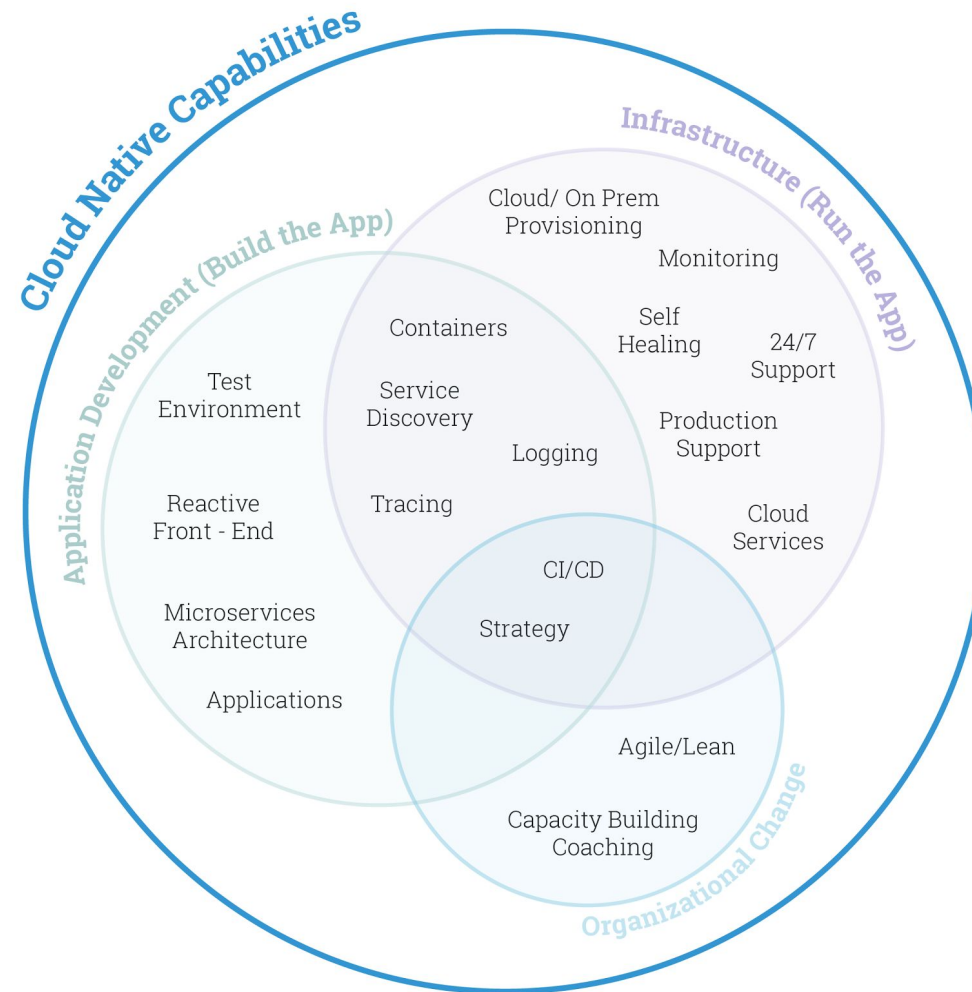

Which Brings Us Neatly Back To

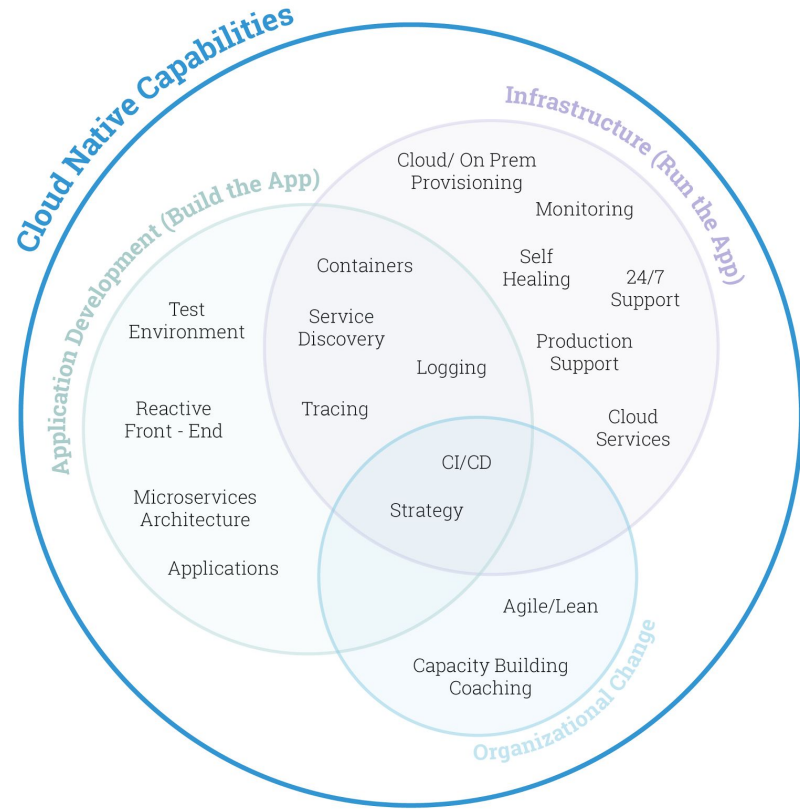

- Situational Awareness.
- Capabilities.
- Self-Supporting Actions.

Lesson #3 - Define the Problem You Are Trying to Solve

The Problem Space

The Problem Space

- Infrastructure is Programmable.
- System 'Shape' == Organisational Shape.

Crossing the River by Feeling The Stones

- Risk and Uncertainty.
- Current Advantage.
- Potential Actions.

- Repeat.

Anti-Pattern #2 - Doing Two Things At Once

Anti-Pattern #3 - Not Finishing What You Start

Learning From...

Startups

- Small Steps.
- Get Out Quickly.

Enterprises

- Buy Knowledge.
- Seek a Wider Coalition.

Lesson #6 - In Times of Great Uncertainty Buy Knowledge
