

Cloud Native Security CONFERENCE NORTH AMERICA

OVERVIEW

Cloud Native Security Con, hosted by CNCF, is designed to foster collaboration, discussion, and knowledge sharing of cloud native security projects and how to best use these to address security challenges and opportunities. The goal is not just to propose solutions that incrementally improve what has come before, but to give room to breakthrough technology and advances in modern security approaches. Topics of sessions and lightning talks presented by expert practitioners include architecture and policy, secure software development, supply chain security, identity and access, forensics, and more.

TWEETS

Ken @run2obtain

My talk at #CloudNativeCon #cnsecurityday titled - #Security #ChaosEngineering for fun & profit. 🚀🚀

James Strong @strongjz · Oct 12
Learning about how we as security engineers need to secure each layer of abstractions #kubeccon from @run2obtain

Reinaldo Guevara @reinaldog

Looking forward to the upcoming week, #KubeCon + #CloudNativeCon + #CNSCon virtual attendance tho, thanks to the @CloudNativeFdn for the opportunity. 🛠️👤🔒🔁

John @JOhnKjell

Worst part so far of KubeCon from home, having to wait until 11 am local time to see @invariantly and @danpopnyc kick off Cloud Native Security Day.
