SupplyChain**SecurityCon**
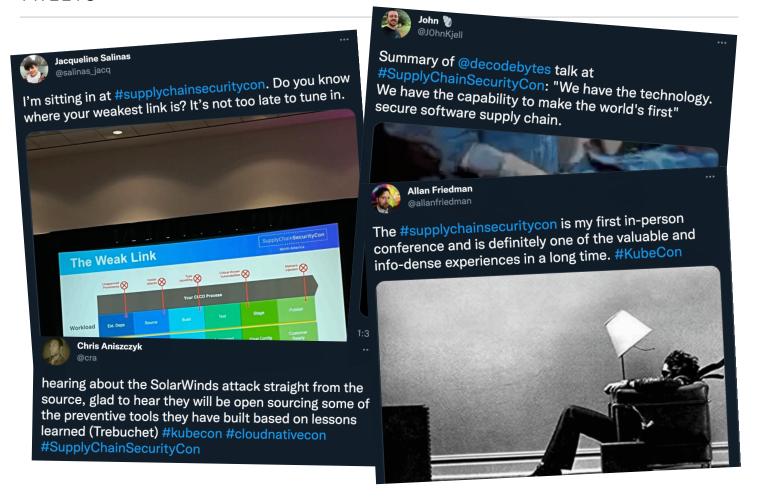

North America

OVERVIEW

SupplyChainSecurityCon is a new, vendor-neutral conference for security practitioners, open source developers, and those interested in software supply chain security hosted by CNCF + CDF. Due to the uptick in supply chain attacks, this event is to bring the community together to discuss supply chain threats, best practices, mitigation tactics including up and coming frameworks and specifications.

TWEETS

Jacqueline Salinas
@salinas_jacq

I'm sitting in at #supplychainsecuritycon. Do you know where your weakest link is? It's not too late to tune in.

Chris Aniszczyk
@cra

hearing about the SolarWinds attack straight from the source, glad to hear they will be open sourcing some of the preventive tools they have built based on lessons learned (Trebuchet) #kubecon #cloudnativecon #SupplyChainSecurityCon

John
@JOhnKjell

Summary of @decodebytes talk at #SupplyChainSecurityCon: "We have the technology. We have the capability to make the world's first" secure software supply chain.

Allan Friedman
@allanfriedman

The #supplychainsecuritycon is my first in-person conference and is definitely one of the valuable and info-dense experiences in a long time. #KubeCon

ATTENDEE DEMOGRAPHICS

Total Registration: 566

VIRTUAL Attendees 84%

IN-PERSON Attendees 16%

COUNTRY

SupplyChainSecurityCon 2021 attracted attendees from all over the world, with the highest concentration coming from:

53% United States

21% India

5% Canada

4% United Kingdom

1% Israel

GENDER

60% Men

12% Women

1% Other Gender Identity

27% Preferred Not to Answer

ATTENDEE JOB FUNCTION

20% Developers

19% Students

17% DevOps/SRE/Sysadmin

16% Architect
