

PrometheusDay EUROPE

OVERVIEW

PrometheusDay is all about Prometheus and the ecosystem it created. Metrics are the most efficient way to extract meaning from large amounts of data. You can see this again, again, and again throughout human history; be it in sailing and trade, power plants, large populations, the internet, cloud, or Kubernetes. We will talk about everything numbers, in cloud-native and beyond.

TWEETS

ATTENDEE DEMOGRAPHICS

Total In-Person Registrations: 149

In-Person Attendees: 110

Livestream Participants: 542
