

CLOUD NATIVE TELCO DAY

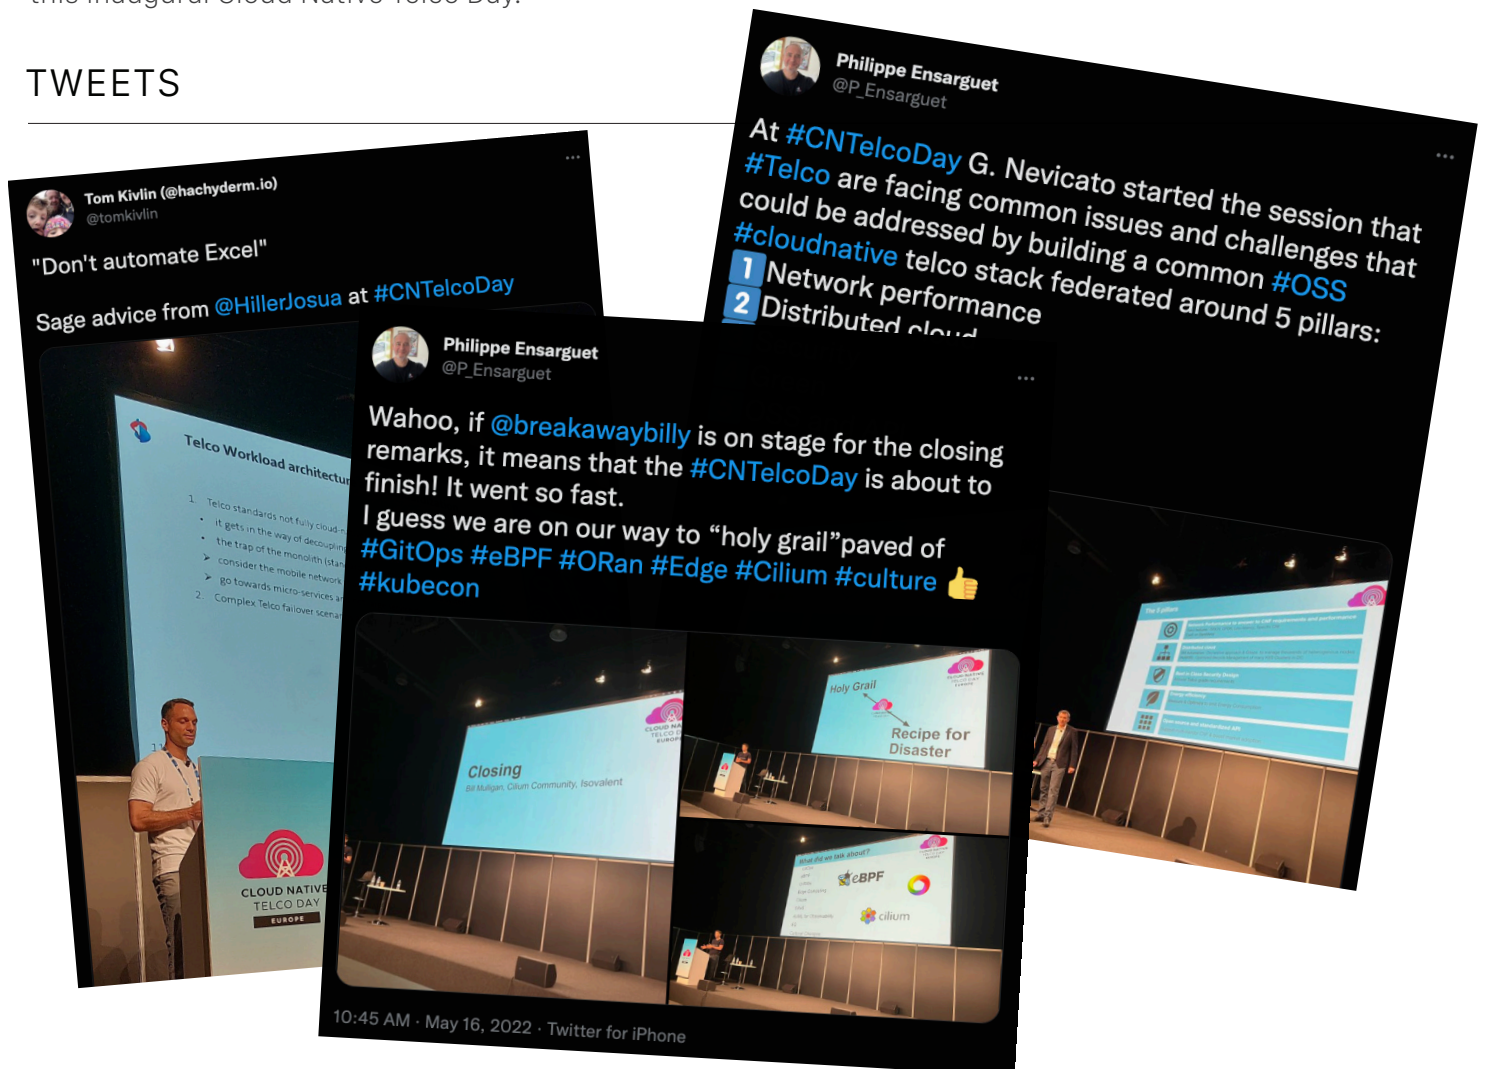

OVERVIEW

Adopting cloud native best practices and principles are critical to the success and growth of Service Providers as they scale to meet new demands for 5G and beyond.

Cloud Native Telco Day brings together Service Providers and Vendors across the Telco ecosystem to collaborate with the cloud native community to share lessons learned in their cloud native journey.

Anyone involved with the digital transformation of Telco applications and/or infrastructures should join this inaugural Cloud Native Telco Day.
