

OVERVIEW

OpenTelemetry Community Day is a time and a place for maintainers, contributors, and users of OpenTelemetry to come together and celebrate both our open source work and our successes with Observability.

The day included community roundtables and discussion groups on OpenTelemetry itself, a flurry of lightning talks where peers have shared how they've been using OpenTelemetry and Observability tools, and some fantastic keynotes and maintainer discussions to help us know where we're all going next.

TWEETS

ATTENDEE DEMOGRAPHICS

Total In-Person Registrations: 142

In-Person Attendees: 49

Livestream Participants: 83

COUNTRY

OTel Community Day North America 2022 attracted attendees from all over the world, with the highest concentration coming from:

- 68% USA
