

# PromCon

## EUROPE 2025

### OVERVIEW

PromCon Europe 2025 made a strong return for its tenth edition, maintaining its dedicated focus to the Prometheus monitoring system. Hosted in Munich on 21-22 October, the event offered 21 in depth sessions and lighting talks, fostering dynamic discussions and networking opportunities.

PromCon connects Prometheus users and developers from around the world to exchange knowledge, best practices, and experience gained around using Prometheus. The event serves as a collaborative experience to build community and grow professional connections around systems and service monitoring
