

gRPConf

NORTH AMERICA

OVERVIEW

On September 3, 2026, the CNCF hosted another dynamic and engaging gRPConf in Mountain View, CA, bringing together a diverse mix of developers, maintainers, industry leaders, and contributors shaping the gRPC ecosystem. The full-day conference delivered a rich blend of technical sessions, hands-on codelabs, keynotes, and interactive “Birds of a Feather” breakouts that created an immersive experience for both seasoned gRPC users and those exploring its enterprise applicability. Real-world cases from major organizations provided grounded insights and actionable advice while sessions on governance, observability, and feature roadmaps signaled maturity and long-term growth.
